

EIZO Joins The Open Group SOSA Consortium to Further the Development of Technology Standards for the Defense Market

Altamonte Springs, Florida, July 21, 2020 – EIZO Rugged Solutions Inc., a provider of high-performance rugged graphics and video products, joined The Open Group® Sensor Open Systems Architecture (SOSA) Consortium to help further the interoperability in configurations requiring GPGPU, AI, video processing and display solutions for the defense market.

The Open Group works with customers and suppliers of technology products and services, and with consortia and other standards organizations to capture, clarify, and integrate current and emerging requirements, establish standards and policies, and share best practices.

With over 33 years of experience in developing graphics and video solutions, EIZO Rugged Solutions brings a wealth of technical expertise to the SOSA™ Consortium with the aim to help drive and contribute to the standards. As a provider of both NVIDIA and AMD GPU based products for GPGPU, AI, video processing and display, the company has always been an avid promoter of open architecture solutions and rugged COTS that benefit the market with options as well as backward compatibility, contributing to long product lifecycles.

The SOSA Consortium is managed by The Open Group, whose vision is to create Boundaryless Information Flow™ through global interoperability. “We are very pleased that EIZO Rugged Solutions has joined The Open Group SOSA Consortium as our newest Member,” said Judy Cerenzia, VP of Forum Operations at The Open Group. “We welcome their expertise and look forward to their contributions to the SOSA Technical Standard and Business Strategy as we continue to evolve the SOSA ecosystem.”
